Independent Auditor's Report

(English Translation of a Report Originally Issued in Korean)

The Shareholders and Board of Directors AJ Networks Co., Ltd.

Opinion

We have audited the consolidated financial statements of AJ Networks Co., Ltd. and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statement of financial position as of December 31, 2023, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and the notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS").

Basis for opinion

We conducted our audit in accordance with Korean Standards on Auditing ("KSA"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Republic of Korea, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matter

A key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

(1) Impairment tests on investments in MostX Co., Ltd., the Group's associate - Estimation of recoverable amount

As described in note 8 to the consolidated financial statements, as of December 31, 2023, the book value of the Group's investments in associates amounts to 43,154 million Korean won, of which the book value of investments in MostX is 5,146 million Korea won. As described in Note 2 to the consolidated financial statements, the Group assesses at the end of each reporting period whether there is an indication that the relevant asset may be impaired, and when there is an indication of impairment, the Group estimates the recoverable amount that is the higher of the asset's fair value less costs to sell and its value in use, and then compares the recoverable amount with its book value. Based on the conclusion that the investment in MostX shows an indication of impairment with its deteriorating business performance, the Group estimated the recoverable amount based on the value in use as described in Note 8. We identified the estimate of recoverable amount of investments in the associate as a key audit matter, because the assessment of the recoverable amount is accompanied by significant judgments and estimations by management, especially on estimated future cash flows, discount rates, perpetual growth rates and others

The main audit procedures that we have conducted for this key audit matter are as follows:

- Obtain an understanding of and assess internal controls related to processes for reviewing the recoverable amount.
- Examine the independence and qualification of external specialists used for management's evaluation.
- Engage the auditor's specialists in the assessment of valuation model used by management in calculating the value in use.
- Evaluate major assumptions used by management in calculating the value in use.
- Recalculate the recoverable amount based on the valuation model suggested by management.
- Assess the sensitivity of value in use, driven by changes in the discount rates and perpetual growth rates.

Other matter

The consolidated financial statements for the year ended December 31, 2022 were audited by Samil PricewaterhouseCoopers whose report dated March 21, 2023 expressed an unqualified opinion thereon.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with KIFRS, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with KSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with KSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Sang II Bae.

Einst Joung Han Joung

March 20, 2024

This audit report is effective as of March 20, 2024, the independent auditor's report date. Accordingly, certain material subsequent events or circumstances may have occurred during the period from the date of the independent auditor's report to the time this report is used. Such events and circumstances could significantly affect the accompanying consolidated financial statements and may result in modifications to this report.

1. General Information

1.1 General Information of the Parent Company

AJ Networks Co., Ltd. (the "Company"), the parent company, was incorporated on February 10, 2000 to engage in the business of long-and-short-term lease and sale of telecommunication equipment, OA equipment and special industrial equipment. The Company acquired and merged with "AJU L&F holdings", which was its parent company, on December 30, 2013, as the date of merger, and changed its name from AJU Rental Co., Ltd to AJ Networks Co., Ltd. In addition, the Company has been listed on the Korea Stock Exchange since August 21, 2015.

The Company's initial capital was 10,000 million Korean won and, after a number of capital increases, its paid-in capital is 46,822 million Korean won as of December 31, 2023. The Company's major stockholders as of December 31, 2023 are as follows:

| | Number of shares | Percentage of ownership (%) |
|---|------------------|-----------------------------|
| Moon Duck Young | 11,760,923 | 25.99 |
| Moon Jee Whe | 6,597,178 | 14.58 |
| Moon Sun Woo | 6,597,173 | 14.58 |
| Ascenta III private equity partnership | 3,498,445 | 7.73 |
| Treasury shares | 301,696 | 0.67 |
| Others | 16,497,344 | 36.45 |
| | 45,252,759 | 100.00 |

The consolidated financial statements have been prepared in accordance with KIFRS 1110 *Consolidated Financial Statements* for the purpose of consolidating 28 subsidiaries including AJ Total Co., Ltd (the Company and its subsidiaries, collectively referred to as the "Group").

1.2 Consolidated Subsidiaries

Details of the consolidated subsidiaries as of December 31, 2023, are as follows:

| | | Percentage of | ownership | | |
|--|----------|----------------|------------|---------------|--|
| | Location | Parent Company | Subsidiary | Closing month | Main operation |
| AJ Total Co., Ltd. | Korea | 100.00% | - | December | Franchise management |

¹ Financial information based on consolidated financial statements of subsidiaries.

1.4 Changes in Scope for Consolidation

Subsidiaries newly included in or excluded from the consolidation for the year ended December 31, 2023 are as follows:

| Subsidiary | Reason | | |
|-----------------------------------|--|--|--|
| AI & Solutions Co., Ltd. | | | |
| AJ ECO SOLUTIONS sp. z o. o. | It was newly established. | | |
| AJ LogisValue USA Inc. | | | |
| AJ DONG NAI COLD CO., Ltd. | It was newly acquired by AJ TOTAL VIETNAM CO., Ltd. | | |
| AJ Auto Parking Service Co., Ltd. | | | |
| AJ Hanrok Co., Ltd. | It was excluded from the consolidation scope due to the sale of equity | | |
| AJ Networks First Limited Company | It was excluded from the consolidation scope due to liquidation. | | |

2. Material Accounting Policies

The material accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of Preparation

The Group prepares its consolidated financial statements in Korean in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS"), enacted based on the *Act on External Audit of Stock Companies*. The accompanying consolidated financial statements have been translated into English from Korean financial statements. In the event of any differences in interpreting the financial statements or the independent auditor's report thereon, Korean version shall prevail. The consolidated financial statements have been prepared on a historical cost basis, except for the following:

• certain financial assets and liabilities (including derivative instruments), certain classes of property, plant and equipment and investment property – measured at fair value;

2.1 Basis of Preparation (cont'd)

- assets held for sale measured at fair value less costs to sell; and
- defined benefit pension plans plan assets measured at fair value.

The preparation of consolidated financial statements requires the use of material accounting estimates. Management also needs to exercise judgement in applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 3.

2.2 Changes in Accounting Policies and Disclosures

2.2.1 Changes in accounting policies

(a) Property, plant and equipment

The Group has changed its subsequent measurement method for land and buildings among property, plant and equipment from the cost model to the revaluation model for the year ended December 31, 2023. This change in accounting policy is intended to measure the Group's land at fair value, thereby making it possible to provide more reliable and relevant information about its impact on the Group's financial position, financial performance, or cash flows. When the accounting policy on revaluation of assets is applied for the first time in accordance with KIFRS 1016 *Property, Plant and Equipment*, it is not retroactively applied. Therefore, the Group did not restate its prior consolidated financial statements for comparative purpose, and instead, subsequently explains it in note 2.4.

(b) Investment property

The Group has changed its subsequent measurement method for investment properties from the cost model to the fair value model for the year ended December 31, 2023. This change in accounting policy is intended to measure the Group's investment properties at fair value, thereby making it possible to provide more reliable and relevant information about its impact on the Group's financial position, financial performance, or cash flows. When the accounting policy on the fair value of investment properties is applied for the first time in accordance with KIFRS 1008 *Accounting Policies, Changes, in Accounting Estimates and Errors*, the Group restates its prior consolidated financial statements for comparative purpose, and subsequently explains it in note 2.27.

2.2.2 New and amended standards and interpretations

The Group applied for the first time certain standards and amendments, which are effective for annual periods beginning on or after January 1, 2023. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

KIFRS 1117 Insurance Contracts

KIFRS 1117 *Insurance Contracts* is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. KIFRS 1117 replaces KIFRS 1104 *Insurance Contracts*. KIFRS 1117 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. The overall objective of KIFRS 1117 is to provide a comprehensive accounting model for insurance contracts that is more useful and consistent for insurers, covering all relevant accounting aspects. KIFRS 1117 is based on a general model, supplemented by:

• a specific adaptation for contracts with direct participation features (the variable fee approach); and

• a simplified approach mainly for short-duration contracts (the premium allocation approach).

The new standard had no impact on the Group's consolidated financial statements.

Definition of Accounting Estimates – Amendments to KIFRS 1008

The amendments to KIFRS 1008 clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments had no impact on the Group's consolidated financial statements.

Disclosure of Accounting Policies – Amendments to KIFRS 1001 and KIFRS Practice Statement 2

The amendments to KIFRS 1001 and KIFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's consolidated financial statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to KIFRS 1012

The amendments to KIFRS 1012 Income Taxes narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities. The amendments had no material impact on the Group's consolidated financial statements.

2.2.2 New and amended standards and interpretations (cont'd)

International Tax Reform—Pillar Two Model Rules – Amendments to KIFRS 1012

The amendments to KIFRS 1012 have been introduced in response to the OECD's BEPS Pillar Two Model Rules and include:

• a mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two Model Rules; and

• disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after January 1, 2023, but not for any interim periods ending on or before December 31, 2023.

Meanwhile, the Group's sales exceed 750 million euros, falling within the scope of application of the Pillar Two Model Rules. Pillar Two legislation has been enacted or substantially enacted in some of the countries in which the Group operates. The Pillar Two legislation will go into effect in the Group's fiscal year beginning on January 1, 2024. The Group has assessed its potential exposure to Pillar Two income tax as it falls within the scope of the enacted or substantially enacted Pillar Two legislation, and the amendments are not expected to have a significant impact on the Group's consolidated financial statements.

2.2.3 Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

Amendments to KIFRS 1116: Lease Liability in a Sale and Leaseback

The amendments to KIFRS 1116 specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognize any amount of the gain or loss that relates to the right of use it retains.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of KIFRS 1116. Earlier application is permitted and that fact must be disclosed. The amendments are not expected to have a material impact on the Group's consolidated financial statements.

2.2.3 Standards issued but not yet effective (cont'd)

Amendments to KIFRS 1001: Classification of Liabilities as Current or Non-current

The amendments to paragraphs 69 to 76 of KIFRS 1001 specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- what is meant by a right to defer settlement;
- that a right to defer must exist at the end of the reporting period;
- that classification is unaffected by the likelihood that an entity will exercise its deferral right; and

• that only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

Supplier Finance Arrangements – Amendments to KIFRS 1007 and KIFRS 1107

The amendments to KIFRS 1007 Statement of Cash Flows and KIFRS 1107 Financial Instruments: Disclosures clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments will be effective for annual reporting periods beginning on or after January 1, 2024. Early adoption is permitted, but will need to be disclosed. The amendments are not expected to have a material impact on the Group's consolidated financial statements.

Lack of Exchangeability – Amendments to KIFRS 1021 and KIFRS 1101

The amendments to KIFRS 1021 The *Effects of Changes in Foreign Exchange Rates* and consequential amendments to KIFRS 1101 *First-time Adoption of IFRS* specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments require disclosure of information that enables users of financial statements to understand the risk and impact of a currency not being exchangeable. The amendments apply to annual reporting periods beginning on or after January 1, 2025. Earlier application is permitted, in which case, an entity is required to disclose that fact. The amendments are not expected to have a material impact on the Group's consolidated financial statements.

2.3 Material Accounting Policies

The Group has prepared its consolidated financial statements in accordance with KIFRS 1110 *Consolidated Financial Statements*.

2.3.1 Consolidation

(a) Business combination

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Transaction costs are expensed as incurred, except for the issuance cost of debt or equity securities accounted for according to KIFRS 1032 and 1109.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognized in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognized in profit or loss.

If share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards), then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based measure of the replacement awards compared with the market-based measure of the acquiree's awards and the extent to which the replacement awards relate to pre-combination service.

(b) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The consolidated financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

(c) Non-controlling interests

Non-controlling interests in a subsidiary are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

2.3.1 Consolidation (cont'd)

(d) Loss of control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(e) Interests in equity method accounted investees

The Group's interests in equity method accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. They are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity method accounted investees, until the date on which significant influence or joint control ceases.

(f) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intragroup transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

(g) Business combinations under a common control

The assets and liabilities acquired under business combinations under common control are recognized at the carrying amounts recognized previously in the consolidated financial statements of the ultimate parent. The difference between consideration transferred and carrying amounts of net assets acquired is recognized as capital surplus or capital adjustments.

2.3.2 Discontinued operations

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations;
- is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

If there is a discontinued operation, the Group restates the statement of comprehensive income as if it had been discontinued from the beginning of the comparative period presented.

2.3.3 Foreign Currency Translation

(a) Functional and presentation currency

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which each entity operates (the "functional currency"). The consolidated financial statements are presented in Korean won, which is the Parent Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are generally recognized in profit or loss. They are recognized in other comprehensive income if they relate to qualifying cash flow hedges and qualifying effective portion of net investment hedges, or are attributable to monetary part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of comprehensive income, within finance costs. All other foreign exchange gains and losses are presented within 'other income or other expenses'.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value through other comprehensive income are recognized in other comprehensive income.

2.3.4 Non-derivative financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- financial assets at fair value through profit or loss;
- financial assets at fair value through other comprehensive income; and
- financial at amortized cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For financial assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt securities, this will depend on the business model in which the investment is held. The Group reclassifies debt securities when, and only when its business model for managing those assets changes.

For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. Changes in fair value of non-designated equity investment are recognized in profit or loss.

(b) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

A. Debt securities

Subsequent measurement of debt securities depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt securities into one of the following three measurement categories.

 Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in 'finance income' using the effective interest rate method.

2.3.4 Non-derivative financial assets (cont'd)

- Fair value through other comprehensive income: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income. Movements in the carrying amount are recognized in other comprehensive income, except for the recognition of impairment loss (reversal of impairment loss), interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is included in 'finance income' using the effective interest rate method. Foreign exchange gains and losses are presented in 'other income' or 'other expense' and impairment losses are presented in 'other expenses'.
- Fair value through profit or loss: Assets that do not meet the criteria to be measured at amortized cost or fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of comprehensive income within 'other income' or 'other expense' in the year in which it arises.
- B. Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments, held for long-term investment or strategic purpose, in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividend income from such investments continue to be recognized in profit or loss as 'finance income' when the right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in 'other income' or 'other expense' in the statement of comprehensive income as applicable. Impairment loss (reversal of impairment loss) on equity investments measured at fair value through other comprehensive income is not reported separately from other changes in fair value.

(c) Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt securities carried at amortized cost and fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables and lease receivables, the Group applies the simplified approach, which requires expected lifetime credit losses to be recognized from initial recognition of the receivables. (note 4.1.2 provides more detail of how the Group determines there has been a significant increase in credit risk.)

2.3.4 Non-derivative financial assets (cont'd)

(d) Recognition and derecognition

Regular-way purchases and sales of financial assets are recognized or derecognized on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

If a transfer does not result in derecognition because the Group has retained substantially all the risks and rewards of ownership of the transferred asset, the Group continues to recognize the transferred asset in its entirety and recognizes a financial liability for the consideration received. The Group classified the financial liability as "borrowings" in the statement of financial position (note 16).

(e) Offsetting of financial instruments

Financial assets and liabilities are offset, and presented at the net amount in the statement of financial position where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

2.3.5 Derivative instruments

Derivatives are initially recognized at fair value on the date when a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each reporting period. Changes in the fair value of any derivative instrument that does not qualify for hedge accounting are recognized immediately in profit or loss within 'other income (expenses)' or 'finance income (costs)' based on the nature of transactions.

2.3.6 Trade receivables

Trade receivables are recognized initially at the amount of consideration that is unconditional, unless they contain significant financing components when they are recognized at fair value. Trade receivables are subsequently measured at amortized cost using the effective interest method, less loss allowance. See note 35 for further information about the Group's accounting for trade receivables and note 35 for a description of the Group's accounting policy for impairment.

2.3.7 Inventories

Inventories are stated at the lower of cost and net realizable value. The cost of inventories is determined using the specific identification method and etc.

2.3.8 Non-current assets (or disposal group) held for sale

Non-current assets (or disposal group) are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. The assets are measured at the lower of their carrying amount and the fair value less costs to sell.

2.3.9 Property, plant and equipment (including rental assets)

Land and buildings are measured at fair value, based on the amount appraised by an independent external evaluator. Revaluations are carried out periodically at the end of the reporting period to ensure that the book value of assets does not significantly differ from fair value. Property, plant and equipment, excluding land and buildings, are presented deducting accumulated depreciation and accumulated impairment losses from the historical cost. The historical cost includes expenses directly related to the acquisition of the assets.

When the book value of an asset increases through revaluation, the increase is recognized as other comprehensive income and, after deducting deferred corporate tax, is incremented to capital under the heading of "Revaluation Surplus". However, if there is a previously recognized revaluation decrease for the same asset, up to that amount, the revaluation increase is recognized in profit or loss. If the book value of an asset decreases by revaluation, the decrease is recognized in profit or loss, but if there is a balance of revaluation surplus for the asset, the revaluation decrease is recognized in other comprehensive income up to that amount. Property, plant and equipment, excluding land and buildings, are depreciated over the estimated useful economic life using the straight-line method for the amount deducted from the acquisition cost by the residual value.

The estimated useful lives of the Group's property, plant and equipment and rental assets are as follows:

Useful lives

| Property, plant and equipment | |
|--|---------------|
| Buildings | 20, 40 years |
| Structures | 8 years |
| | 2 – 5 |
| Furniture and fixture | years 4, 8 |
| Vehicles | years |
| | 4 – 10 |
| Machinery | years |
| Facilities | 4 years |
| Rental assets | |
| | 1 – 6 |
| OA rental assets | years |
| | 1 – 12 |
| Rental assets of industrial safety equipment | years |
| Rental assets of pallets | 3 – 10 |
| | years |

2.3.9 Property, plant and equipment (including rental assets) (cont'd)

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

Gain or loss arising from the disposal of property, plant and equipment is determined by the difference between the net disposal proceeds and the book value, and is recognized as either other income or other expense. Upon disposal, any revaluation surplus related to the asset intended for sale is reclassified to retained earnings.

For rental assets, when the rental contract is terminated and held for sale, the carrying amount of rental assets is transferred to inventories.

2.3.10 Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Investment income earned on the temporary investment of specific borrowings on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are expensed in the period in which they are incurred.

2.3.11 Government Grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants related to assets are presented in the statement of financial position by deducting the grant in arriving at the carrying amount of the asset, and government grants related to income are deferred and later deducted from the related expense.

2.3.12 Intangible Assets

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for intended use. The residual value of intangible assets is zero. However, as useful lives of intangible assets are not foreseeable to the periods over which memberships are expected to be available for use, this intangible asset is determined as having indefinite useful lives and not amortized.

2.3.12 Intangible assets (cont'd)

The estimated useful lives of the Group's intangible assets for the year ended December 31, 2023 are as follows:

| | Useful lives |
|----------|--------------|
| Software | 1 – 5 years |
| Others | 2 – 5 |

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Subsequent expenditures

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditures on internally generated goodwill and brands, are not recognized as assets but expensed as incurred.

2.3.13 Investment property

Investment properties that the Company holds to earn rental income, capital gains, or both, are initially measured at cost, including transaction costs at the time of initial recognition. After initial recognition, investment properties are measured at fair values reflecting the current market conditions as of the end of the reporting period, and the gains or losses arising from changes in fair values are recognized in profit or loss of the period in which they occur. A replacement of investment properties only occurs when the purpose of a property changes.

If an investment property is replaced by owner-occupied property or inventories, the deemed cost is its fair value at the date of change in use, and if an owner-occupied property is replaced by an investment property, the difference between book value at the date of change in use and fair value is accounted for in the same way as the revaluation accounting treatment under KIFRS 1016. If inventories and construction in progress are replaced by investment properties, the difference between the book value at the fair value at the date of change in use is recognized in profit or loss.

When investment properties are to be disposed of or when no further economic benefit is expected from the discontinuance of use and disposal of the properties, they are removed from the consolidated statement of financial position. The gain or loss from the disposal or interruption of investment properties is the difference between the net disposal amount and the carrying amount and is recognized as profit or loss for the period of disposal (the accounting of sale after lease contracts applies KIFRS 1116 to be recognized as a loss on disposal).

2.3.14 Impairment of non-financial assets

An impairment test is conducted annually for goodwill or intangible assets with an indefinite useful life, and when there are indicators of impairment for depreciable assets. Investment shares in related parties are tested for impairment only when there are indications that the carrying amount may not be recoverable.

Impairment loss is recognized when the carrying amount exceeds the recoverable amount (the higher of net fair value and value in use or fair value less costs to sell), and for assets other than goodwill, the potential for reversal is reviewed at each reporting period end.

The recoverable amount of an asset is the higher of its value in use and its net fair value and is determined for each individual asset, unless cash inflow of that individual asset is not largely independent of the cash inflow from other assets or groups of assets, in which case it is determined by the cash-generating unit to which it belongs. If the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and its carrying amount is reduced to its recoverable amount.

The value in use is estimated using the present value discounted at a pre-tax discount rate that reflects the time value of money and the risks specific to the asset of the projected future cash flows. The net fair value considers recent transaction prices and if such transactions are identified any valuation model is applied. These calculations include valuation multiples, market capitalization of public stocks, or other fair value indicators.

The Group calculates impairment based on specific financial forecasts/budgets prepared for each cashgenerating unit to which the individual assets have been distributed. Financial budgets/forecasts generally cover a period of 5 years, and a terminal growth rate is calculated for longer periods and applied for periods beyond 5 years.

Impairment loss is recognized in profit or loss consistent with expense items related to the function of the impaired asset. For assets, excluding goodwill, indications as to whether a previously recognized impairment loss no longer exists, or has decreased, are assessed at each reporting period end and when such indications exist, recoverable amounts are estimated. A previously recognized impairment loss for an asset, excluding goodwill, is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. The recovery reverses to the net carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years and is recognized in profit or loss.

2.3.15 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of reporting period which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities, unless payment is not due within 12 months [or the normal operating cycle of the Company] after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

2.3.16 Financial liabilities

(a) Classification and measurement

The Group's financial liabilities at fair value through profit or loss are financial instruments held for trading. A financial liability is held for trading if it is incurred principally for the purpose of repurchasing in the near term. A derivative that is not a designated as hedging instruments and an embedded derivative that is separated are also classified as held for trading.

The Group classifies non-derivative financial liabilities, except for financial liabilities at fair value through profit or loss, financial guarantee contracts and financial liabilities that arise when a transfer of financial assets does not qualify for derecognition, as financial liabilities carried at amortized cost and present as 'trade and other payables', and 'borrowings' in the statement of financial position.

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facilized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Preferred shares that require mandatory redemption on a specific date are classified as liabilities. Interest expenses on these preferred shares using the effective interest method are recognized in the statement of comprehensive income as 'finance costs', together with interest expenses recognized from other financial liabilities.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(b) Derecognition

Financial liabilities are removed from the statement of financial position when it is extinguished; for example, when the obligation specified in the contract is discharged or cancelled or expired or when the terms of an existing financial liability are substantially modified. The difference between the

2.3.16 Financial liabilities (cont'd)

carrying amount of a financial liability extinguished or transferred to another party and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

2.3.17 Financial guarantee contracts

Financial guarantee contracts are recognized as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- The amount determined in accordance with the expected credit loss model under KIFRS 1109 *Financial Instruments;* and
- the amount initially recognized less, where appropriate, the cumulative amount of income recognized in accordance with KIFRS 1115 *Revenue from Contracts with Customers.*

The fair value of a financial guarantee contract is determined based on the market price of similar financial instruments, comparing the interest rates of borrowings with and without financial guarantees, or based on the amount to be paid for financial guarantees.

The related liability is recognized as other financial liabilities in the consolidated statement of financial position.

2.3.18 Compound financial instruments

Compound financial instruments are convertible notes that can be converted into equity instruments at the option of the holder.

The liability component of a compound financial instrument is recognized initially at the fair value of a similar liability that does not have an equity conversion option, and subsequently measured at amortized cost until extinguished on conversion or maturity of the bonds. The equity component is recognized initially on the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

2.3.19 Provisions

Provisions for service warranties, restoration, and legal proceedings are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period, and the increase in the provision due to the passage of time is recognized as interest expense.

2.3.20 Current and deferred tax

The tax expense for the period consists of current and deferred tax. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax expense is measured at the amount expected to be paid to the taxation authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation, and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

The Group recognizes a deferred tax liability all taxable temporary differences associated with investments in subsidiaries, associates, and interests in joint arrangements, except to the extent that the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. In addition, The Group recognizes a deferred tax asset for all deductible temporary differences arising from such investments to the extent that it is probable the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset when the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

2.3.21 Employee benefits

(a) Post-employment benefits

The Group operates both defined contribution and defined benefit pension plans.

For defined contribution plans, the Group pays contribution to publicly or privately administered pension insurance plans on mandatory, contractual or voluntary basis. The Group has no further payment obligation once the contribution has been paid. The contribution is recognized as employee benefit

2.3.21 Employee benefits (cont'd)

expense when they are due.

A defined benefit plan is a pension plan that is not a defined contribution plan. Generally, postemployment benefits are payable after the completion of employment, and the benefit amount depends on the employee's age, periods of service or salary levels. The liability recognized in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service costs.

(b) Share-based payments

Equity-settled share-based payment is recognized at fair value of equity instruments granted, and employee benefit expense is recognized over the vesting period. At the end of each period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

When the options are exercised, the Group issues new shares. The proceeds received, net of any directly attributable transaction costs, are recognized as share capital (nominal value) and share premium.

Certain entities within the Group provide long-term employee benefits to which employees with service period for ten years and above are entitled. The expected costs of these benefits are accrued over the period of employment using the same accounting methodology as used for defined benefit pension plans. The Group recognizes service cost, net interest on other long-term employee benefits and remeasurements as profit or loss for the year. These liabilities are valued annually by an independent qualified actuary.

2.3.22 Revenue recognition

- (a) Revenue from contracts with customers
 - Sale of goods: Revenue from sales of goods is recognized when the products have been delivered to the customer.
 - Rendering of services: For revenue from rendering of services in relation to cold storage and real estate rental services, the Group recognizes the allocated transaction price for each performance obligation over the contract period as revenue over the service period.

(b) Interest income

Interest income is recognized using the effective interest method according to the time passed. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount and continues unwinding the discount as interest income. Interest income on impaired loans and receivables is recognized using the original effective interest rate.

(c) Dividend income

Dividend income is recognized when the right to receive payment is established.

2.3.23 Leases

(a) Lessor

The Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group, a manufacturer, or dealer lessor, recognizes the following for each of its finance leases:

- revenue being the fair value of the underlying asset, or, if lower, the present value of the lease payments accruing to the lessor, discounted using a market rate of interest; and
- the cost of sale being the cost, or carrying amount if different, of the underlying asset less the present value of the unguaranteed residual value.

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Group's net investment in the leases. Finance income is allocated to accounting periods to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases. In case of financial lease receivables of which credit is impaired, however, finance income is calculated by referring to amortized cost (that is, the amount net of provision for impairment).

In case where the Group is an intermediate lessor, the Group accounts for the head lease and sublease as two separate contracts. The Group classifies the sublease as a finance lease or an operating lease depending on the right-of-use assets arising from the head lease, not an underlying asset.

2.3.23 Leases (cont'd)

The Group recognizes lease payments from operating leases as income on either a straight-line basis or another systematic basis. The Group applies another systematic basis if that basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished. The Group adds initial direct costs incurred in obtaining an operating lease to the carrying amount of the underlying asset and recognizes those costs as an expense over the lease term on the same basis as the lease income.

After initial recognition, the Group reviews the estimated non-guaranteed residual value on a regular basis and recognizes the expected credit loss of lease receivables as loss allowance by applying the requirements for derecognition and impairment of KIFRS 1109.

The Group allocates the promised amount of consideration to each component by applying KIFRS 1115 in case where lease and non-lease components are included in contracts.

(b) Lessee

The Group leases various offices, warehouses, retail stores, equipment, and cars. Lease contracts are typically made for fixed periods but may have extension options.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

The Group determines the lease term as the non-cancellable period of a lease, together with both (a) periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and (b) periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option. When the lessee and the lessor each has the right to terminate the lease without permission from the other party, the Group should consider a termination penalty in determining the period for which the contract is enforceable.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that are based on an index or a rate, initially measured using the index or rate as of the commencement date;
- Amounts expected to be payable by the Group (the lessee) under residual value guarantees;
- The exercise price of a purchase option if the Group (the lessee) is reasonably certain to exercise that option; and

2.3.23 Leases (cont'd)

• Payments of penalties for terminating the lease, if the lease term reflects the Group (the lessee) exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held entity, which does not have recent third-party financing; and
- makes adjustments specific to the lease, for example term, country, currency and security.

If a readily observable amortizing loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the Group uses that rate as a starting point to determine the incremental borrowing rate.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

2.3.23 Leases (cont'd)

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. The Group elected not to apply the revaluation model to buildings held by the Group that are presented in the right-of-use assets.

Payments associated with short-term leases of all equipment and vehicles and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option. Low-value assets comprise IT-equipment and small items of office furniture.

(c) Variable lease payments

Variable payment terms are used for a variety of reasons, including minimizing the fixed costs. Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

(d) Extension and termination options

Extension and termination options are included in a number of property, plant and equipment leases across the Group. These terms are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group and not by the respective lessor.

2.3.24 Earnings per share

Basic earnings per share are calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted-average number of ordinary shares outstanding during the year, adjusted for own shares held.

Diluted earnings per share are calculated by dividing profit for the period by sum of weighted-average number of ordinary shares outstanding and weighted-average number of potential dilutive ordinary shares. The potential dilutive shares are reflected in the calculation for dilutive earnings per share when there are dilutive effects.

2.3.25 Segment reporting

Information of each operating segment is reported in a manner consistent with the internal business segment reporting provided to the chief operating decision-maker (Note 4). The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the chief executive officer that makes strategic decisions.

2.3.26 Approval of issuance of the consolidated financial statements

The consolidated financial statements for the year ended December 31, 2023 were approved for issue by the Board of Directors on February 21, 2024 and are subject to change with the approval of shareholders at their Annual General Meeting.

2. Material Accounting Policies (cont'd)

2.4 Change in Accounting Policy

(a) Application of revaluation model for property, plant and equipment

The Group has reviewed the accounting treatment for the measurement of certain categories of property, plant and equipment after initial recognition. Previously, all property, plant and equipment were measured using the cost model as stipulated in paragraph 30 of KIFRS 1016. Accordingly, assets classified as property, plant and equipment were accounted for at cost less depreciation after initial recognition.

For the year ended December 31, 2023, the Group opted to change the subsequent measurement method of land and buildings classified as property, plant and equipment to the revaluation model. We believe that the revaluation model more effectively reflects the financial position of land and buildings and that fair values can be reliably measured in the real estate market where the assets are located. The Group has applied the revaluation model retrospectively.

The Group applies the revaluation model to land and buildings, whereby land is measured at fair value as of revaluation date and buildings are measured at fair value less accumulated depreciation and impairment losses as of revaluation date.

(b) Application of fair value model to investment property

The Group has reviewed the accounting treatment for the measurement of investment property after initial recognition. Previously, investment property was measured using the cost model under paragraph 56 of KIFRS 1040 and assets classified as property, plant and equipment were recognized at cost less depreciation after initial recognition.

For the year ended December 31, 2023, the Group changed the subsequent measurement method of investment property to the fair value model. This change in accounting policy is to provide more reliable and appropriate information about the impact of measuring land and buildings at fair value on the Group's financial position, financial performance, or cash flows. The Group has applied this retrospectively in accordance with KIFRS 1008 *Accounting Policies, Changes in Accounting Estimates and Errors*.

(c) Financial impact of change in accounting policies

The financial impact of the changes in accounting policies regarding the subsequent measurement of property, plant and equipment and investment properties is as follows.

2.4 Change in Accounting Policy (cont'd)

3. Material Accounting Estimates and Assumptions

The preparation of consolidated financial statements requires the Group to make estimates and assumptions concerning the future. Management also needs to exercise judgement in applying the Group's accounting policies. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. As the resulting accounting estimates will, by definition, seldom equal the related actual results, it can contain a significant risk of causing a material adjustment.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. Additional information of significant judgement and assumptions of certain items are included in relevant notes.

(a) Impairment loss of goodwill

The Group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of a cash generating unit (CGU) is determined based on value-in-use calculations (See note 10).

(b) Income taxes

The Group's taxable income generated from these operations are subject to income taxes based on tax laws and interpretations of tax authorities in numerous jurisdictions. There are many transactions and calculations for which the ultimate tax determination is uncertain (See note 31).

The Group is subject to additional corporate tax calculated according to the method prescribed by tax law if it does not utilize a certain amount of taxable income for investments, wage increases, etc. during a specific period. Therefore, when measuring current and deferred corporate tax for that period, the tax effects resulting from this must be reflected, and the corporate tax burden may vary each year according to the level of investments, wage increases, etc., leading to uncertainty in the final tax effect calculation.

(c) Fair value of financial instruments

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period (See note 8).

(d) Impairment of financial assets

The provisions for impairment of financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the Group's history, existing market conditions as well as forward looking estimates at the end of each reporting period.

3. Material Accounting Estimates and Assumptions (cont'd)

(e) Impairment of non-financial assets

The Group evaluates the existence of any impairment indicators for all non-financial assets as of the end of every reporting period. An impairment test is performed annually for goodwill and intangible assets with indefinite useful lives or when impairment indicators are present. For other non-financial assets, we review annually whether there are indicators that the carrying amount may not be recoverable and perform an impairment test when such indicators are present. The company measures the recoverable amount of the asset as the higher of its value in use or its fair market value less disposal costs, and compares this to the carrying amount of the asset.

To calculate the value in use, management must estimate the future expected cash flows arising from the asset or cash generating unit and choose an appropriate discount rate to calculate the present value of these future expected cash flows. Details of key assumptions are described in note 8.

If the recoverable amount of an asset or cash-generating unit is less than its carrying amount, the carrying amount of the asset is reduced and recognized immediately as expense for the current period.

Goodwill acquired through business combinations is allocated to each cash generating unit that is expected to benefit from the synergies of the combination. Any impairment loss for a cash-generating unit is initially applied to the carrying amount of the goodwill allocated to the unit, then to the carrying amounts of the other assets in the unit. An impairment loss recognized for goodwill cannot be reversed in subsequent periods.

At the end of each reporting period, we review whether there are signs that impairment losses recognized in previous periods for assets, other than goodwill, no longer exist or have decreased. A reversal of an impairment loss is only made when there have been changes in the estimates used to determine the recoverable amount since the last impairment loss was recognized. The increased carrying amount due to the reversal of an impairment loss cannot exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized in the past.

(f) Lease

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For leases of warehouses, retail stores and equipment, the following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Group is typically reasonably certain to extend (or not terminate);
- If any leasehold improvements are expected to have a significant remaining value, the Group is typically reasonably certain to extend (or not terminate); and

3. Material Accounting Estimates and Assumptions (cont'd)

• Otherwise, the Group considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

Most extension options in offices and vehicles leases have not been included in the lease liability, because the Group could replace the assets without significant cost or business disruption.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

4. Operating Segments

The management (senior executives), which conducts strategic decision-making, makes decisions on the Group's operating division. The Board of Directors makes decisions on the resources to be allocated to the division and, to evaluate the division's performance, is conducting review based on the division's operating profit.

Sales are mostly composed of rental revenues, revenue from the sale of goods and others. The Group's operating division is identified on the basis of organization and the type of revenue-creating service. As at the end of the reporting period, the operating segment consists of rental, refrigerated and distribution, and others.

The information, by operating division, for each of the two years in the period ended December 31, 2023 was prepared as subsequent to intercompany transaction adjustment.

| (in thousands of Korean won) | 2023 | | | | | |
|------------------------------|---------------|---------------|--------------|-----------------|--|--|
| | Rental | Total | | | | |
| Operating revenue | ₩ 592,632,545 | ₩ 343,502,100 | ₩ 65,841,349 | ₩ 1,001,975,994 | | |
| Depreciation | 156,482,182 | 4,775,772 | 437,763 | 161,695,716 | | |
| Amortization | 1,485,383 | 861,009 | 1,649,090 | 3,995,482 | | |

| (in thousands of Korean won) | 2022 | | | | | | | |
|------------------------------|---------------|---------------------|---|-------------|--------|-------------|-------|---------------|
| | Warehouse and | | | | | | | |
| | | Rental distribution | | | Others | | Total | |
| Operating revenue | ₩ | 622,885,616 | ₩ | 508,641,189 | ₩ | 62,124,861 | ₩ | 1,193,651,666 |
| Depreciation | | 146,699,327 | | 4,640,478 | | 616,827 | | 151,956,632 |
| Amortization | | 867,793 | | 938,757 | | 1,730,178 | | 3,536,728 |
| Operating profit (loss) | | 77,127,664 | | 363,928 | | (1,072,929) | | 76,418,663 |

4. Operating Segments (cont'd)

The information on assets and revenues by each operating segment reported to the management as of and for the years ended December 31, 2023 and 2022, is as follows:

| (in thousands of Korean won) | Revenue from ext | ernal customers ¹ | Non-current assets ² | | | |
|---------------------------------|------------------|------------------------------|---------------------------------|-----------------|--|--|
| | 2023 | 2022 | 2023 | 2022 | | |
| Domestic | ₩ 1,031,981,570 | ₩ 1,194,510,436 | ₩ 1,317,030,425 | ₩ 1,112,737,488 | | |
| Foreign | 58,139,518 | 40,339,295 | 137,356,353 | 151,430,467 | | |
| Consolidation adjustments | (88,145,094) | (41,198,065) | (204,113,402) | (192,041,028) | | |
| | ₩ 1,001,975,994 | ₩ 1,193,651,666 | ₩ 1,250,273,376 | ₩ 1,072,126,927 | | |

¹ Revenue is attributed to the country based on the customer's location.

² The amount excludes financial instruments and deferred tax assets.

There is no customer whose revenue from external customers exceeds 10% of the Group's total revenue for each of the two years in the period ended December 31, 2023.

5. Cash and Cash Equivalents

Cash and cash equivalents as of December 31, 2023 and 2022 consist of:

| (in thousands of Korean won) | | 2023 | | 2022 |
|------------------------------|---|-------------|---|-------------|
| Cash on hand | ₩ | 28,947 | ₩ | 34,387 |
| Bank deposits and others | | 122,073,125 | | 131,827,011 |
| | ₩ | 122,102,072 | ₩ | 131,861,398 |

Financial instruments which are restricted in use as of December 31, 2023 and 2022 are as follows:

| (in thousands of Korean won) | Financial institutions | | 2023 | | 2022 | Description |
|------------------------------------|------------------------------|---|-----------|---|-----------|---|
| Cash and cash | Bank of America | ₩ | 38,682 | ₩ | - | Deposit for opening credit cards |
| equivalents | KEB Hana Bank / BIDV Bank | | 483,540 | | - | Establishment of pledge for scheduled interest repayment |
| Short-term financial instruments | Shinhan bank | | 315,600 | | 626,210 | Establishment of pledge for guarantee deposits and scheduled payment for purchase |
| | Hana bank | | 2,128 | | 2,400,000 | |
| Long-term financial instruments | Shinhan bank | | 4,770,390 | | 1,354,000 | Establishment of pledge for collaterals, guarantee deposits, |
| | Hana bank | | 2,000 | | 2,000 | deposits for checking accounts |
| | Citibank Korea Inc | | 2,500 | | 2,500 | and other |
| | | ₩ | 5,614,840 | ₩ | 4,384,710 | |

6. Inventories

Inventories as of December 31, 2023 and 2022 are as follows:

| (in thousands of Korean won) | 2023 | | | 2022 | | |
|---|------|-------------|---|------------|--|--|
| Raw materials | ₩ | 214,768 | ₩ | 285,277 | | |
| Merchandises | | 14,447,906 | | 21,087,758 | | |
| Allowance for valuation of merchandises | | (1,063,940) | | (104,993) | | |
| Supplies | | 4,227,813 | | 3,756,695 | | |
| | ₩ | 17,826,547 | ₩ | 25,024,737 | | |

7. Financial Assets at Fair Value

Financial assets at fair value as of December 31, 2023 and 2022 are as follows:

| (in thousands of Korean won) | 2023 | | | | | |
|---|------|---------------|-----------------|------------|--|--|
| | Acqu | uisition cost | Carrying amount | | | |
| Financial assets at fair value through other comprehensive income | | | | | | |
| Equity instrument Financial assets at fair value through profit or loss (current) | ₩ | 13,805,418 | ₩ | 13,447,136 | | |
| Debt instrument Financial assets at fair value through profit or loss (non-current) | | 7,001,652 | | 1,428,486 | | |
| Equity instrument | | 32,700,831 | | 17,052,612 | | |
| Debt securities | | 1,011,330 | | 933,505 | | |
| | | 33,712,161 | | 17,986,117 | | |
| | ₩ | 54,519,231 | ₩ | 32,861,739 | | |

7. Financial Assets at Fair Value (cont'd)

Impairment of investments in associates

The Group performed impairment tests considering Darae Parktech Co., Ltd., an associate, as an individual Cash Generating Unit (CGU) for the year ended December 31, 2023. The recoverable amount of the CGU is determined based on the calculation of value in use. The calculation uses the estimated cash flows based on management's business plan.

The Group recognized the difference between the recoverable amount and its book amount as an impairment loss amounting to $\forall 2,102$ million and $\forall 3,491$ million in relation with Darae Parktech Co., Ltd., and MostX Co., Ltd., respectively, both of which are its associates, as of valuation date. Pre-tax discount rates and perpetual growth rates for beyond the period used on major CGUs are as follows. The growth rate does not exceed the long-term average growth rate for the industry in which the CGU operates.

| (in percentage, %) | Perpetual growth rate | Pre-tax discount rate ¹ |
|--------------------------|-----------------------|---------------------------------------|
| Darae Parktech Co., Ltd. | 1.00% | 12.58% |
| MostX Co., Ltd. | 0.00% | 13.17% |

¹ The impact on the impairment loss is not significant with an 1% increase or decrease.

9. Rental Assets

| Interest expense relating to lease liabilities | ₩ | 2,326,046 | ₩ | 1,921,536 | |
| Expense relating to short-term leases | | 2,459,400 | | 4,265,842 | |
| Expense relating to leases of low-value assets that are not short-term leases | | 112,610 | | 784,408 | |
| Expense relating to variable lease payments not included in lease liabilities | ₩ | 2,898,971 | ₩ | 2,740,071 | |

Amounts classified as discontinued operations are included.

The total cash outflow for leases in 2023 was ₩ 19,282 million (₩ 22,104 million in 2022).

11. Leases (cont'd)

- Leases as lessor

Lease receivables as of December 31, 2023 and 2022, consist of (See note 14):

| (in thousands of Korean won) | | 2023 | | 2022 |
|---------------------------------|---|------------|---|------------|
| Current | ₩ | 11,571,632 | ₩ | 7,954,045 |
| Non-current | | 21,833,358 | | 13,763,314 |
| Allowance for doubtful accounts | | (104,718) | | (85,414) |
| | ₩ | 33,300,272 | ₩ | 21,631,945 |

The gross investment in the lease and present value of minimum lease payments for finance lease receivables as of December 31, 2023 and 2022, are as follows:

| (in thousands of Korean won) | | 20 | 23 | | 2022 | | | | | |
|------------------------------|-------|------------------------------|----|--------------------------------------|--------|------------------------------|---|------------|--|--|
| | inv | Gross estment in lease | of | esent value minimum e payments | inv | Gross estment in lease | Present value of minimum lease payments | | | |
| Within one year | ₩ | 14,891,414 | ₩ | 11,571,632 | ₩ | 9,173,641 | ₩ | 7,954,045 | | |
| Between 1 and 2 years | | 11,222,709 | | 8,731,470 | | 7,922,103 | | 6,388,993 | | |
| Between 2 and 3 years | | 7,957,183 | | 6,389,549 | | 4,879,148 | | 3,790,269 | | |
| Between 3 and 4 years | | 5,934,002 | | 4,950,522 | | 3,230,527 | | 2,362,953 | | |
| Between 4 and 5 years | | 2,097,830 | | 1,761,817 | | 2,051,525 | | 1,208,158 | | |
| Later than five years | 1,181 | | | - | 16,065 | | | 12,941 | | |
| | ₩ | ₩ 42,104,319 | | ₩ 33,404,990 | | 27,273,009 | ₩ | 21,717,359 | | |

For the year ended December 31, 2023, there was no income from variable lease payments not included in the net investment in the lease. Sales and costs for lease receivables for the year ended December 31, 2023, amounted to $\forall 17,340$ million ($\forall 11,211$ million in 2022) and $\forall 21,718$ million ($\forall 10,619$ million in 2022), and interest income on lease receivables for the years ended December 31, 2023 and 2022, amounted to $\forall 4,120$ million and $\forall 2,402$ million, respectively.

12. Intangible Assets

Intangible assets as of December 31, 2023 and 2022, consist of:

| (in thousands of Korean won) | | | | 2023 | | 2022 | | | | | | | |
|---------------------------------|---|------------|---|--------------|---|------------|------------------|------------|----------------|---------------------------------------|-------------|--|--|

¹ An impairment loss was recognized because the recoverable amount was less than the carrying amount for the year ended December 31, 2022.

² These are changes due to foreign currency translation.

³ 70% of the shares was newly acquired for the year ended December 31, 2022.

The Group tests annually whether goodwill has suffered any impairment. As a result of impairment test, the Group has determined that the carrying amount of CGUs will not exceed the recoverable amount except for the portion recognized as an impairment loss. The recoverable amount was determined based on value-in-use calculations.

The value-in-use calculations was based on cash flow estimates based on the financial budget for the next five years. The Group estimates future revenue and operating profit, or loss based on past performance and expectations for future market fluctuations for financial budget and cash flow projections. Cash flows expected to be generated after five years were estimated within the scope of not to exceed long term average growth rate of industry. The discount rate used is a discount rate that reflects the specific risks of the related business unit.

The key assumptions used in calculating the value in use of CGUs are as follows.

| (in thousands of Korean won) | ands of Korean AJ Jeonkook Sky Co., Ltd AJ Total Co., | | otal Co., Ltd. | AJ | Daewon Co., Ltd. | | AJ Rental, Inc. | TS GLOBAL CO. | | |
|---|--|---------|----------------|--------|---------------------|-----------|-----------------|---------------|---|-----------|

| Perpetual growth rate ¹ | | 0.00% | | 1.00% | | 0.00% | | 1.00% | | 0.00% |
| Pre-tax discount rate ¹ | | 12.46% | | 12.02% | | 13.35% | | 10.41% | | 14.01% |

¹ The impact on impairment losses resulting from an 1% increase or decrease is not significant.

13. Investment Properties

The subsequent measurement method for investment properties has been changed from the cost model to the fair value model that encapsulates economic reality. Additionally, the fair value of the investment properties has been retrospectively adjusted.

Details of investment properties as of December 31, 2023 and 2022, are as follows:

| (in thousands of Korean won) | | 2023 | 2022 | | | |
|------------------------------|---|------------|------|------------|--|--|
| Land | ₩ | 63,928,139 | ₩ | 8,103,697 | | |
| Buildings | | 34,484,421 | | 15,609,478 | | |
| | ₩ | 98,412,560 | ₩ | 23,713,175 | | |

Changes in investment properties for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | | | | 2023 | | | 20221 | | | | | | |
|---------------------------------|------|------------|---|--------------|---|-------------|-------|-----------|---|-------------|---|-------------|--|
| | Land | | | Building | | Total | | Land | | Building | | Total | |

¹ As of the end of the last fiscal year, some of the right-of-use assets are being provided as subleases, and among them, operating leases have been classified as investment properties.

² Fair value assessment of the lease usage portion of AJ Building and AJ Vision Tower, which were purchased during this fiscal year, is included.

³ Disposed right-of-use assets subleases during this fiscal year are included.

During the year, rental income earned from investment properties is \forall 5,915 million (\forall 4,287 million in 2022), and direct operating expenses (including repairs and maintenance) from investment properties that generated rental income are \forall 1,995 million (\forall 1,372 million in 2022).

13. Investment Properties (cont'd)

The investment properties are leased to tenants under operating leases with rentals payable monthly. The future minimum lease payments expected to be received in relation to the above operating lease agreement for investment properties as of December 31, 2023 and 2022, are as follows:

| (in thousands of Korean won) | 2023 | | | 2022 | | |
|------------------------------|------|-----------|---|-----------|--|--|
| Within one year | ₩ | 2,478,940 | ₩ | 2,213,171 | | |
| Between 1 and 2 years | | 1,727,570 | | 577,427 | | |
| Between 2 and 3 years | | 877,903 | | 304,613 | | |
| Between 3 and 4 years | | 689,000 | | 31,250 | | |
| Between 4 and 5 years | | 503,133 | | - | | |
| | ₩ | 6,276,546 | ₩ | 3,126,461 | | |

The year ended December 31, 2023, the Group measured the subsequent valuation of investment properties at fair value, relying on the results of the fair value assessment by an independent and authorized professional appraisal institute for determining the fair value of the investment properties.

The fair value measurement of investment properties measured as of December 31, 2023 and 2022 according to the hierarchy level, is as follows.

| (in thousands of Korean won) | | | 2023 | | | | | | | 2022 | | | |
|---------------------------------|---------|-----|---------|---|---|------------|---|---------|---|---------|---|---|------------|
| | Level 1 | | Level 2 | | | Level 3 | | Level 1 | | Level 2 | | | Level 3 |

¹ The Group has entered into sales and leaseback contracts of rental assets with some financial institutions, such as IBK Capital, that include conditions for acquisition without considerations after the end of the lease period. The Group recognizes these contracts as collateralized borrowings based on their substance, and the amount secured by collateral for the above rental assets is set at 100% to 120% of balance of borrowings.

² The Group borrowed \forall 20 billion each from Shinhan, Nonghyup, Hana, and the Korea Development Bank (totaling 80 billion won), and pledged 24 billion won each (totaling 96 billion won) against the building, representing 120% of the borrowed amount.

³ The Group has entered into a collateral rights agreement for Shinhan Bank's fixed deposit of $\forall 4$ billion in connection with the ABL borrowing of $\forall 40$ billion from the Korea Development Bank.

¹ The Group has entered into sales and leaseback contracts of rental assets with some financial institutions, such as IBK Capital, that include conditions for acquisition without considerations after the end of the lease period. The Group recognizes these contracts as collateralized borrowings based on their substance, and the amount secured by collateral for the above rental assets is set at 100% to 130% of balance of borrowings.

² The Group borrowed $\forall 40,000,000$ thousand from AJU CO., LTD., and pledged all shares issued by AJ Rental Inc. as collateral for the loan with establishing AJU CO., LTD. as the first priority beneficiary.

For six parking towers, including Eastern City Tower operated by AJ Park Co., Ltd., a subsidiary that was disposed for the year ended December 31, 2021, there was an agreement in which the Group assumed contractual obligations, such as payment of a rental deposit and payment of rent and management expenses, to the lessor on condition that the lease is terminated before the expiration of the lease period. In this regard, the Group entered into an agreement with the buyer that Humax Mobility Co., Ltd. and HiParking, the buyers of AJ Park Co., Ltd., jointly guarantee the liability under the replacement lease agreement, and the Group will bear only supplementary liability.

In 2023, the subsidiary company, APS Co.,Ltd. (formerly AJ Autoparking Systems), which was sold during the year, and the guarantee insurance limit transactions between the Korea Finance for Construction and Seoul Guarantee Insurance, are provided with payment guarantees by the Group. In relation to these payment guarantees, the purchasing company, Autronic Co.,Ltd. has entered into a firm commitment to fully indemnify any losses incurred.

Call-option and drag-along

Occurrence condition

Remarks

| Call-option | The Group exercises the call-option against the RCPS ¹ held by Most X Co.,Ltd. for 5 years from 24 months after the closing date of the transaction | achieve IRR 8% of the call- option |
|-------------|---|---|
| Drag-along | If the management performance of Most X Co.,Ltd. does not meet the performance target, the qualifying listing period (four years from the closing date of the transaction) has elapsed and the target company does not meet the requirements for listing, so IPO is not made and the deadline for qualifying listing has passed | Condition that when an investor exercises an option, [Amount that can achieve IRR 8% of the target] is preferentially repaid to the investor up to the total proceeds, and the Group distributes an amount that can achieve an IRR of 8% for the acquisition cost of shares up to the remaining amount |

¹ Currently, 2022, all RCPSs have been converted to ordinary shares, and the call-option is still effective on the ordinary shares.

On December 23, 2019, in accordance with the shareholders' agreement entered into between AJ Capital Partners Co., Ltd. and Modu Rental Holdings Co., Ltd., AJ Capital Partners Co., Ltd. was granted call options for all or part of the redeemable convertible preferred shares of Most X Co.,Ltd. held by Modu Rental Holdings Co., Ltd. Inaddition, AJ Capital Partners Co., Ltd. has granted a right to request joint sale to Modu Rental Holdings Co., Ltd. if Modu Rental Holdings Co., Ltd. sells its shares of Most X Co.,Ltd. Subsequently, following the absorption merger of AJ Capital Partners Co., Ltd.'s Most X-related division on March 31, 2021, all contracts were transferred to the Group.

Right to acquire without considerations

As of December 31, 2023, the Group holds the right to acquire without considerations the greater of 17,915 shares from the largest shareholder's holdings or the number of shares equivalent to 7.5% of DaRae Park Tech Co., Ltd.'s total issued shares at the time of transfer, as an option to acquire shares, in relation to the associated company DaRae Park Tech Co., Ltd.

Call-option and put-option

Occurrence condition

Remarks

| Call-option | The Group exercises the call-option against 4,800 share of TS GLOBAL CO. held by Park Sejin for 2 years from 5 years after the closing date of the transaction | Exercise price is adjusted by the difference between the net asset value and profit for the previous fiscal year and the amount specified in the contract on the exercise date. |
|-------------|---|--|
| Put-option | Park Sejin exercises the put-option against the Group with 4,800 share of TS GLOBAL CO. for 2 years from 5 years after the closing date of the transaction | Exercise price is adjusted by the difference between the net asset value and profit for the previous fiscal year and the amount specified in the contract on the exercise date. |

Call option and put option were granted as for 4,800 shares of TS Global Co., Ltd. as pursuant to the shareholders' contract signed between AJ Networks and TS Global Co., Ltd. on October 6, 2022 and the agreement on termination of transactions based on the above contract signed on November 15, 2022.

For these options, the Group recognized derivative assets of \forall 1 million (\forall 3,163 million in 2022) and derivative liabilities of $\forall 5,147$ million ($\forall 6,972$ million in 2022).

As of December 31, 2023, 32,381 ordinary shares (acquisition cost of ₩ 9.1 billion) of Most X Co.,Ltd. among investments in associates held by the Group are provided as collateral to Mirae Asset Daewoo Co., Ltd. and Shinhan Capital Co., Ltd. amounting to $\forall 42$ billion.

As of December 31, 2023, there are 10 litigation (14 litigation in 2022) in which the Group is a defendant. The total litigation value is $\forall 993$ million ($\forall 1,764$ million in 2022). The Group recognizes the provision that is likely to be incurred in the future. As of December 31, 2023, the provision for legal proceedings amounted to $\forall 101$ million ($\forall 101$ million in 2022), and impairments on trade receivables and rental assets and others of ₩ 917 million (₩ 1,141 million in 2022) were reflected in the consolidated financial statements for the year ended December 31, 2023.

The Group has opened and allowed the use of its accounts for the management complex, for which a management organization has not been established. Accordingly, as of December 31, 2023, there is a balance in the Group's account. However, the amount, totaling 11,497 million won, does not constitute a part of the Group's assets.

As of December 31, 2023, the Group holds 25 unissued promissory notes received from Shinhan Bank and others.

20. Derivative Financial Instruments

Details of derivative instruments entered into with financial institutions as of December 31, 2023 and 2022 are as follows :

As of December 31, 2023, the Group has entered into an interest rate swap with financial institutions to hedge the interest rate risk.

Details of unsettled derivative instruments held by the Group as of December 31, 2023 and 2022 are as follows:

| Туре | Period | | 2023 | 2022 | Financial |
|--------------------|----------------------------------|---|-------------|------------|---------------|
| | Jan. 29, 2021 - Jan. 29, 2024 | ₩ | 2,083,333 ₩ | 10,416,667 | Hana bank |

| Revaluation surplus | | 48,487,773 | | |
| | ₩ | 57,724,837 | ₩ | 7,169,408 |

23. Share-based Payments

Share-based payment arrangements granted by the Group as of December 31, 2022, are as follow:

| | 1st Grant ¹ | 2nd Grant ¹ |
|---|----------------------------|--|
| Grant date Grant method Vesting condition and exercisable period | - 1st-5th: The options are | for one year after the grant date. The options have a contractual option term of two years at the rate of 50% per annum - In the 2nd, the remaining share options are collectively exercised - The exercise period is from March 29, 2024 to March 28, |
| Number of shares to be issued | 86,580 shares | 287,910 shares |
| Exercise price | ₩ 4,650 | ₩ 6,180 |

¹ The Group measured the cost of the share options granted for each of the two years in the period ended December 31, 2023, by fair value approach using the option pricing model approach.

23. Share-based Payments (con'd)

Changes in the number of share options outstanding and their related weighted average exercise prices for each of the two years in the period ended December 31, 2023 are as follows:

| | 20 | | 2022 | | | |
|---|--|---|-----------------|---|--|-------|
| | Average exercise prio Number of per share options option <i>(in shares) (in Korean</i> w | | se price are | Number of options <i>(in shar</i> es) | Average exercise price per share option <i>(in Korean won)</i> | |
| Beginning balance | 374,490 | ₩ | 5,826 | 86,580 | ₩ | 4,650 |
| Granted | - | | - | 287,910 | | 6,180 |
| Ending balance | 374,490 | ₩ | 5,826 | 374,490 | ₩ | 5,826 |
| Exercisable at the end of the reporting period | 17,316 | ₩ | 4,650 | - | ₩ | - |

23. Share-based Payments (cont'd)

Expiry dates and exercise prices of share options outstanding as of December 31, 2023 and 2022, are as follows:

| | | | р | ercise price er share n Korean | Number of share | s (in shares) | | |
|--|--------------------|---------------|---|--------------------------------------|-----------------|---------------|--|--|
| Grant date | Exercisable period | Expiry date | | won) | 2023 | 2022 | | |
| Mar. 20, 2021 | Mar. 30, 2023 | Mar. 29, 2024 | ₩ | 4,650 | 17,316 | 17,316 | | |
| Mar. 30, 2021 | Mar. 30, 2024 | Mar. 29, 2025 | | 4,650 | 17,316 | 17,316 | | |
| Mar. 30, 2021 | May 30, 2025 | Mar. 29, 2026 | | 4,650 | 17,316 | 17,316 | | |
| Mar. 30, 2021 | Mar. 30, 2026 | Mar. 29, 2027 | | 4,650 | 17,316 | 17,316 | | |
| Mar. 30, 2021 | Mar. 30, 2027 | Mar. 29, 2028 | | 4,650 | 17,316 | 17,316 | | |
| Mar. 29, 2022 | Mar. 29, 2024 | Mar. 28, 2025 | | 6,180 | 143,955 | 143,955 | | |
| Mar. 29, 2022 | Mar. 29, 2025 | Mar. 28, 2026 | | 6,180 | 143,955 | 143,955 | | |
| | | | | | 374,490 | 374,490 | | |
| Weighted average remaining period of share options outstanding at the end of | | | | | | | | |

the reporting period

The Group measured the cost of the share options granted by fair value using the binomial model approach. The related assumptions and variables to measure the cost of the share options granted are as follows:

2.1

2.9

| (in Korean won) | 2nd | Grant | 1st Grant | | |
|--|--------------|-------|-----------|-------|--|
| Weighted average fair value of share options | | | | | |
| granted during the year | \mathbf{W} | 1,134 | ₩ | 736 | |
| Weighted average share price at grant date | W | 6,180 | ₩ | 4,435 | |
| Price volatility | | 30.6% | | 31.1% | |
| Dividend yield | | 4.37% | | 4.74% | |
| Risk-free interest rate | | 2.95% | | 1.78% | |

Share-based payments recognized as expenses for the year ended December 31, 2023, amount to \forall 167 million (\forall 156 million in 2022). All expenses are related to equity-settled share-based payments.

24. Retained Earnings

Retained earnings as of December 31, 2023 and 2022, consist of:

| (in thousands of Korean won) | 2023 | | | 2022 |
|---|------|-------------|---|-------------|
| Legal reserves ¹ | ₩ | 7,630,245 | ₩ | 6,421,514 |
| Reserve for business rationalization ² | | 1,173,040 | | 1,173,040 |
| Retained earnings before appropriation ³ | | 236,556,308 | | 238,993,724 |
| | ₩ | 245,359,593 | ₩ | 246,588,278 |

¹ The *Commercial Act* of the Republic of Korea requires the Parent Company to appropriate for each financial period, as a legal reserve, an amount equal to a minimum of 10% of cash dividends paid until such reserve equals 50% of its issued share capital. The reserve is not available for cash dividends payment, but may be transferred to share capital or used to reduce accumulated deficit. When the accumulated legal reserves (the sum of capital reserves and earned profit reserves) are greater than 1.5 times the paid-in capital amount, the excess legal reserves may be distributed (in accordance with a resolution of the shareholders' meeting).

² The Group also recorded tax credits from *Tax Reduction and Exemption Control Act* as business rationalization reserve until 2002. The reserve can only be used as reserve for loss carry forwards and equity transfer. However, on December 11, 2002, with amended *Tax Reduction and Exemption Control Act*, the related clause was removed, and the business rationalization reserves are changed to discretionary reserves.

³ During the current period, a change in accounting policy related to investment properties led to the retroactive application of fair value for investment properties, resulting in fluctuations in retained earnings.

25. Earnings (Losses) per Share

Basic earnings (losses) per share for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | 2023 | | 2022 | |
|--|------|------------|------|--------------|
| Profit attributable to the ordinary equity holders of the Parent Company | ₩ | 15,771,857 | ₩ | 21,128,711 |
| Profit (loss) from discontinued operation attributable to the ordinary equity holders of the Parent Company | | 752,764 | | (12,235,177) |
| | ₩ | 16,524,621 | ₩ | 8,893,534 |
| Weighted average number of ordinary shares outstanding ¹ (<i>in shares</i>) | | 45,034,654 | | 44,767,816 |
| Basic earnings per share from continuing operations (in Korean won) | ₩ | 350 | ₩ | 472 |
| Basic earnings (losses) per share from discontinued operations <i>(in Korean won)</i> | ₩ | 17 | ₩ | (273) |

¹ Weighted averages number of ordinary shares outstanding for each of the two years in the period ended December 31, 2023 are as follows:

| (in shares and thousands of Korean won) | Date | Number of ordinary shares outstanding | Number of days | We | eighted average |
|---|------------------------------|---|-------------------|----|-----------------|
| 2023 | | | | | |
| Beginning balance | Carried over from prior year | 44,767,816 | 365 | ₩ | 16,340,252,840 |
| Disposal of treasury stock | Disposal during the year | 484,943 | 234 | | 113,476,662 |
| Acquisition of treasury stock | Acquisition during the year | (301,696) | 53 | | (16,080,965) |
| Total | | 44,951,063 | | ₩ | 16,437,648,537 |
| | | | ÷ | | 365 |
| Weighted average nur | nber of shares | | | ₩ | 45,034,654 |
| 2022 | | | | | |
| Beginning balance | Carried over from prior year | 44,767,816 | 365 | ₩ | 16,340,252,840 |
| Total | | 44,767,816 | | ₩ | 16,340,252,840 |
| | | | ÷ | | 365 |
| Weighted average nur | mber of shares | | | ₩ | 44,767,816 |

The Group has issued stock options, but there is no dilutive effect, so basic earnings per share and diluted earnings per share are the same. The number of potential ordinary shares without dilutive effect is 374,490 shares (374,490 shares in 2022) as of December 31, 2023.

26. Operating Revenue

Operating revenues for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | | 2023 | 2022 | | |
|------------------------------|---|---------------|------|---------------|--|
| Rental revenue | ₩ | 451,238,703 | ₩ | 405,840,895 | |
| Revenue from sale of goods | | 430,547,657 | | 682,403,877 | |
| Others | | 120,189,634 | | 105,406,894 | |
| | ₩ | 1,001,975,994 | ₩ | 1,193,651,666 | |

The Group has recognized the following amounts relating to revenue in the statements of comprehensive income for each of the two years in the period ended December 31, 2023:

| (in thousands of Korean won) | 2023 | | | | | | |
|------------------------------|---|-------------|---|-------------|---|---------------|--|
| | Revenue from contracts with Lease componentsRevenue from contracts with customers | | | | | Total | |

| | ₩ | 78,793,372 | ₩ | 45,291,336 |

29. Other Income and Expenses

Other income and expenses for each of the two years in the period ended December 31, 2023 as follows:

| (in thousands of Korean won) | 2023 | | | 2022 |
|---|------|------------|---|------------|
| Other income | | | | |
| Gain on disposal of property, plant and equipment | ₩ | 8,304,077 | ₩ | 209,353 |
| Gain on disposal of intangible assets | | 1,119,153 | | - |
| Gain on disposal of investments in associates | | - | | 487,518 |
| Gains on valuation of investment properties | | 29,025,151 | | 637,760 |
| Others | | 10,547,326 | | 4,245,547 |
| | ₩ | 48,995,708 | ₩ | 5,580,178 |
| Other expenses | | | | |
| Loss on disposal of property, plant and equipment | ₩ | 914,091 | ₩ | 108,932 |
| Impairment loss on property, plant and equipment | | 129,249 | | 405,020 |
| Loss on disposal of intangible assets | | 897,287 | | 88,200 |
| Impairment loss on intangible assets | | 948,884 | | 4,798,116 |
| Impairment loss on equity method | | 5,593,118 | | 6,979,741 |
| Loss on valuation of investment properties | | 209,469 | | 3,279,703 |
| Others | | 2,017,196 | | 1,324,790 |
| | ₩ | 10,709,295 | ₩ | 16,984,503 |

30. Share of Profit (Loss) of Associates

Share of profit (loss) of associates for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | | 2023 | | 2022 |
|--|---|---------------------------|---|--------------------------|
| Share of profit of associates Share of loss of associates | ₩ | 4,113,043 (24,333,955) | ₩ | 3,710,850 (5,025,824) |
| | ₩ | (20,220,912) | ₩ | (1,314,974) |

31. Income Tax Expense

Income tax expense for each of the two years in the period ended December 31, 2023 consists of:

| (in thousands of Korean won) | | 2023 | | 2022 |
|---|---|--------------|---|-------------|
| Current tax expense | ₩ | 8,410,794 | ₩ | 14,522,434 |
| Changes in deferred taxes due to temporary difference | | 15,417,308 | | (9,303,061) |
| Income tax expense directly reflected in equity | | (14,141,001) | | 152,163 |
| Additional income taxes | | 75,925 | | 439,205 |
| Others | | 3,586,477 | | (3,738,077) |
| Income tax expense | ₩ | 13,349,503 | ₩ | 2,072,664 |
| From continuing operations | ₩ | 13,300,038 | ₩ | 5,232,754 |
| From discontinued operations | | 49,465 | | (3,160,090) |

Reconciliation between profit before income tax and income tax expense for each of the two years in the period ended December 31, 2023 is as follows:

| (in thousands of Korean won) | | 2023 | 2022 | | |
|---|---|-------------|------|--------------|--|
| Profit before income tax expense | ₩ | 29,821,858 | ₩ | 10,739,843 | |
| From continuing operations | | 29,019,629 | | 26,135,110 | |
| From discontinued operations | | 802,228 | | (15,395,267) | |
| Income tax expense calculated at the applicable tax rate | | 6,683,078 | | 2,191,433 | |
| Tax effects of: | | | | | |
| Non-deductible expenses | | 9,911,191 | | (1,845,018) | |
| Non-taxable income | | (1,388,357) | | 79,715 | |
| Effect of unrecognized deferred income tax assets and others | | (1,856,410) | | 1,646,535 | |
| Income tax expense | ₩ | 13,349,503 | ₩ | 2,072,664 | |
| From continuing operations | ₩ | 13,300,038 | ₩ | 5,232,754 | |
| From discontinued operations | | 49,465 | | (3,160,090) | |
| Effective tax rate | | | | | |
| From continuing operations | | 46% | | 20% | |
| From discontinued operations ¹ | | 6% | | - | |

¹ Effective tax rate was not calculated due to loss before income tax.

The analysis of deferred tax assets and liabilities as of December 31, 2023 and 2022, is as follows:

| (in thousands of Korean won) | | 2023 | | 2022 |
|---|---|--------------|---|--------------|
| Deferred tax assets Deferred tax asset to be recovered after more than | | | | |
| 12 months | ₩ | 19,771,139 | ₩ | 13,830,180 |
| Deferred tax asset to be recovered within 12 months | | 7,413,253 | | 15,689,034 |
| Deferred tax liabilities | | | | |
| Deferred tax liability to be recovered after more than 12 months | | (29,771,005) | | (14,637,523) |
| Deferred tax liability to be recovered within 12 months | | (4,328,754) | | (6,379,750) |
| Deferred tax assets (liabilities), net | ₩ | (6,915,366) | ₩ | 8,501,941 |

The aggregate current and deferred taxes relating to items that are charged or credited directly to equity for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of | | 2023 | | | 2022 | | | | | | | |
|--|---|------------|------|-------------|-----------|-----------|------------|-------------|---|-----------|---|-------------|
| Korean won) | B | Before tax | | ax effect | After tax | | Before tax | | т | ax effect | | After tax |
| Gain (loss) on valuation of financial assets at fair value through other comprehensive income | ₩ | 196,595 | ₩ | (44,060) | ₩ | 152,534 | ₩ | (1,665,888) | ₩ | 386,495 | ₩ | (1,279,393) |
| Remeasurements of net defined benefit liability | | - | | - | | - | | 284,784 | | (66,070) | | 218,714 |
| Equity adjustments using equity method | | 1,062,197 | | (238,058) | | 824,139 | | 725,270 | | (168,262) | | 557,008 |

34. Financial Risk Management

The Group's activities are exposed to a variety of financial risks: market risk (comprised of foreign exchange risk and interest rate risk), credit risk and liquidity risk. The Group monitors and manages the financial risk arising from the Group's underlying operations in accordance with the risk management policies and programs.

Risk management is carried out under policies approved by the Board of Directors. The Board reviews and approves written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments and investment of excess liquidity.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

Credit risk is borne by not only the credit risk arisen by customers with receivables and firm contracts but cash and cash equivalent, financial derivatives, financial institution deposit and financial guarantee

34. Financial Risk Management (cont'd)

liabilities. For customers, credit risk is assessed by considering customer's financial condition, past experience and other factors.

(b) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. To maintain adequate sources of liquidity, the Group manages liquidity risk by analyzing and adjusting expected cash outflows periodically.

(c) Market risk

Market risk is the risk of fluctuations in fair value of financial instrument and future cash flow by changes of market price. The purpose for managing market price is to optimize profits, while manage and control on exposure to market risk within acceptable limits.

a) Foreign exchange risk

The major currencies are denominated in dollars, yuan and others, and the Group has established a policy to manage foreign exchange risk on functional currency.

b) Interest rate risk

The Group is exposed to interest rate. The risk is composed of the changes in amount of accounts including finance assets and liabilities, and changes in interest income (expense) from investment and borrowings. The interest rate risk is borne by the interest-bearing liabilities and assets, such as debentures or loan. The purpose of the Group's interest rate risk management is to mitigate the interest rate risk and minimize the net interest expense, further to optimize the enterprise value.

c) Price risk

The Group's activities are exposed to price risk related to marketable securities by changes of market price. Stocks held by the Group are traded in public market.

(d) Management of capital risk

The objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital. As for this to be maintained, the Group uses debt ratio as indicator of capital management. Net debts are the amount obtained by subtracting cash and cash equivalents from total borrowings (including short-term and long-term borrowings in the consolidated statement of financial position) and total capital consists with net debts and capital.

35. Risk Management of Financial Instruments

- (a) Credit risk
- a) Exposure to credit and counterparty risk

The carrying amount of financial assets means maximum exposure in respect of credit and counterparty risk. The maximum exposure as of December 31, 2023 and 2022 is as follows:

| (in thousands of Korean won) | | 2023 | 2022 | | |
|--|---|-------------|------|-------------|--|
| | | | | 404 007 044 | |
| Cash and cash equivalents ¹ | ₩ | 122,073,125 | ₩ | 131,827,011 | |
| Trade receivables | | 110,780,653 | | 95,025,112 | |
| Other current financial assets | | 34,147,300 | | 21,289,310 | |
| Financial assets at fair value through profit or loss (current) | | 1,428,486 | | 3,848,587 | |
| Financial assets at fair value through profit or loss (non-current) | | 933,505 | | 549,723 | |
| Long-term financial instruments | | 4,774,890 | | 1,358,500 | |
| Other non-current financial assets | | 30,771,334 | | 30,440,650 | |
| Derivative financial assets (current) | | 5,507 | | 18,475 | |
| Derivative financial assets (non-current) | | - | | 176,501 | |
| Financial guarantee contracts ² | | 11,621,708 | | 14,589,127 | |

¹ Cash on hand is excluded.

² This amount represents the total amount that payments can be made in the future due to the financial guarantee contract.

35. Risk Management of Financial Instruments (cont'd)

b) Impairment loss

The impairment loss as of December 31, 2023 and 2022 was determined as follows for trade receivables:

| (in thousands of Korean won) | Current | More than 3 months past due | More than 6 months past due | More than 1 year past due | Total |
|---|---------------|-----------------------------------|-----------------------------------|---------------------------------|---------------|
| As of December 31, 2023 | | | | | |
| Expected loss rate | 0.34% | 5.29% | 38.39% | 99.37% | |
| Gross carrying amount – trade receivables | ₩ 105,703,956 | ₩ 4,837,992 | ₩ 1,257,733 | ₩ 12,780,959 | ₩ 124,580,640 |
| Loss allowance | 360,760 | 255,997 | 482,838 | 12,700,392 | 13,799,987 |
| As of December 31, 2022 | | | | | |
| Expected loss rate | 0.63% | 12.73% | 65.62% | 95.67% | |
| Gross carrying amount – trade receivables | ₩ 92,199,177 | ₩ 2,297,710 | ₩ 2,806,625 | ₩ 10,188,394 | ₩ 107,491,906 |
| Loss allowance | 585,418 | 292,398 | 1,841,685 | 9,747,293 | 12,466,794 |

Movements in the loss allowance for trade receivables for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | | 2023 | 2022 | | |
|--|---|-------------|------|-------------|--|
| Beginning balance | ₩ | 12,466,794 | ₩ | 17,335,303 | |
| Impairment loss | | 2,690,376 | | 3,308,675 | |

| Derivative financial assets | | - | 4,838 | | 669 | 5,507 | | | | | |
| Derivative financial liabilities | | - | 55,550 | | 5,146,661 | 5,202,211 | | | | | |
| (in thousands of Korean won) | Le | vel 1 | 20 Level 2 |)22 | Level 3 | Total | | | | | |
| Financial assets at fair value through profit or loss Financial assets at fair value | ₩ | - ₩ | - | ₩ | 26,660,847 ₩ | 26,660,847 | | | | | |
| through other comprehensive income | | 3,244,488 | - | | 9,440,888 | 12,685,376 | | | | | |
| Derivative financial assets | | - | 194,976 | | 3,163,317 | 3,358,293 | | | | | |
| Derivative financial liabilities | | - | - | | 6,971,882 | 6,971,882 | | | | | |

There are no material transfers between levels 1, 2 and 3.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The valuation techniques and the unobservable inputs used in measuring Level 2 fair values as of December 31, 2023 and 2022, are as follows:

| (in thousands of Korean won) | | 2023 | | 2022 | Valuation techniques |
|----------------------------------|---|--------|---|---------|-------------------------|
| Derivative financial assets | ₩ | 4,838 | ₩ | 194,976 | DCF model ¹ |
| Derivative financial liabilities | | 55,550 | | - | DCF model |

¹ The fair value of the interest rate swap is calculated as the present value of future cash flows estimated by observable yield curves. The interest rate used for discounting expected cash flows was determined by adding a credit spread to the year-end government bond yield.

The valuation techniques and the unobservable inputs used in measuring Level 3 fair values as of December 31, 2023 and 2022, are as follows:

| (in thousands of | | Fair value | | Valuation | | | |
|---|---------|------------|------------|--|-----------------------------|--|--|
| Korean won) | 2023 | | 2022 | techniques | Inputs | | |
| Financial assets at fair value through profit or loss | ₩ 19,41 | 4,602 ₩ | 26,660,847 | Net asset value method, DCF | Discount rate | | |
| Financial assets at fair value through other comprehensive income | 9,40 | 1,726 | 9,440,888 | model and others | adjusted for credit risk | | |
| Derivative financial assets | | 669 | 3,163,317 | Value of the fund portfolio, | | | |
| Derivative financial liabilities | 5,14 | 6,661 | 6,971,882 | Underlying asset prices and others | Binominal model | | |

Changes in level 3 for recurring fair value measurements for each of the two years in the period ended December 31, 2023 are as follows:

| (in thousands of Korean won) | 2023 | | | | | | | | | | | |

2022

The sensitivity analysis for the effect on comprehensive income before income tax from changes in inputs for each financial instrument for each of the two years in the period ended December 31, 2023 is as follows:

| (in thousands of Korean won) | 202 | 23 | 2022 | | | | | |
|--|--|--|--|--|--|--|--|--|
| | Favorable changes (changes by 1%) | Unfavorable changes (changes by 1%) | Favorable changes (changes by 1%) | Unfavorable changes (changes by 1%) | | | | |
| Financial assets at fair value through profit or loss ¹ | ₩ 194,146 | ₩ (194,146) | ₩ 266,608 | ₩ (266,608) | | | | |
| Financial assets at fair value through other comprehensive income ¹ | 94,017 | (94,017) | 94,409 | (94,409) | | | | |
| Derivative financial assets ² | 96 | (96) | 118,278 | (117,779) | | | | |
| Derivative financial liabilities ² | (51,546) | 51,553 | 3,283 | 93,119 | | | | |

¹ Changes in their fair value are calculated by increasing or decreasing the growth rate, which are significant unobservable inputs, by 1%.

²Changes in their fair value are calculated by increasing or decreasing the underlying asset price, which are significant unobservable inputs, by 1%.

Changes in fair value are calculated by increasing or decreasing the significant unobservable inputs. Changes when decreasing input by 1% is calculated as favorable changes (unfavorable changes for derivative financial liabilities) and changes when increasing input by 1% is calculated as unfavorable changes (favorable changes for derivative financial liabilities).

c) Financial instruments not measured at fair value, and for which fair value is disclosed

Financial instruments recognized by amortized cost, but presented as fair value classified by fair value hierarchy as of December 31, 2023 and 2022 are as follows:

| (in thousands of | 2023 | | | | | | | | | |
|------------------|---------|---------|--------------------------|-----------------|--|--|--|--|--|--|
| Korean won) | Level 1 | Level 2 | Level 3 | Total | | | | | | |
